EDUCATION

2024 - Present	B -Tech(CSE) at JIET	(GPA: 8.6/10.0)
2023	Class 12th RBSE Board	(72 percent)
2022	Class 10th RBSE Board	(65 percent)

WORK EXPERIENCE

Web Development Intern TechieHelp Aug 2025 – Sep 2025

- Completed a one-month internship focused on front-end development and responsive web design.
- Built a personal portfolio website and developed a clone website project using HTML, CSS, and JavaScript.
- Strengthened practical skills in UI development, layout design, and real-world problem solving under professional mentorship. [Offer letter](#), [Certificate](#).

Artificial Intelligence Intern Enginow Jan 2026 - Feb 2026

- Worked on machine learning and NLP-based projects, including an emotion detection system for paragraph-level text analysis.
- Developed end-to-end pipelines for data preprocessing, TF-IDF feature extraction, model training, and evaluation using Scikit-learn.
- Deployed an interactive emotion analyzer web application using Streamlit and maintained the project with GitHub version control. [Offer letter](#)

PROJECTS

AutoFixNow Python, Groq LLM, SQLite, Geopy [Link to Demo](#)

Built AutoFixNow, an AI-powered roadside assistance platform that transforms emergency vehicle repairs into a transparent marketplace. Engineered end-to-end solution with Flask backend, Next.js frontend, and AI chatbot for immediate troubleshooting assistance.

FaceInsight - AI Face Analysis JavaScript, face-api.js, OpenCV, Python [Link to Demo](#)

Developed a real-time face analysis web application using face-api.js with Tiny Face Detector, integrating age estimation, gender classification, and emotion recognition models to process webcam streams and uploaded images with optimized detection loops.

SKILLS

Technical Skills: HTML, CSS, JS, Python, UI/UX Design
Soft Skills: Communication, Adaptability, Teamwork, Leadership

CERTIFICATIONS

Accenture Development–Forage (April 2025)	Certificate
Microsoft RAG Based Agent	Certificate
